Investments

First thing’s first: investing in property should be fun!

Property has long been a time-tested source of income but it can be a minefield to navigate in order to get it right and if you get it wrong it can be disastrous!

Our property expert Tim has helped many people to become Property Investors, all of whom had different circumstances and objectives. Some wanted to build a Property Portfolio, whereas others were only in a position to pay a deposit for one Investment Property. Here are two examples of clients Tim has helped.

But before you consider our success stories we want to tell you about our attitude towards our fee - the same as our mortgage strategy - you should pay only on results, just as Peter & Joan and Robert & Katya:

**CASE STUDY 1 - Peter & Joan**

This couple wanted to build a portfolio. With a fairly large sum of money to invest in property they did not know how and where to find the best properties.

Tim took them to an area of the country he knows well, where the rental market is strong, and the yields are high. They spent a day looking at properties, getting to know the area, meeting local agents, including the letting agent who would manage the properties for them. They chose four properties to purchase to start off their portfolio. Tim helped to secure the purchases and then sourced their mortgages. They have been receiving an ongoing return on their investment ever since.

They are now looking to further expand the portfolio in the coming year.

**CASE STUDY 2 - Robert & Katya**

Robert & Katya only had enough cash for one purchase. This couple had saved a small amount and wanted to invest in property but didn’t think it would be possible with such a small deposit.

Tim showed them how this can be done in an area of the country where purchase prices are low but need for rental property is high. He went to the area on their behalf (sometimes he goes with the client, sometimes he goes on their behalf, depending on circumstances), sourced the best property, arranged the agent to manage it and organised the right mortgage for them. They too have been receiving a return on their investment ever since.

We know that by working together and using our simple formula, we can help you take the next step to investing in property and our ongoing service.

We’re here, ready and waiting, the rest is up to you…it’s simple!
ON-SITE TRAINING AND FULFILMENT

We don’t believe that just talking is enough! You want to experience your investment, see the properties and feel the potential!

Simple Property Investment has a two-step process designed to help get you on your feet and take your next steps to establishing or expanding your portfolio.

Before you start, you have to know what would be great for you!

You may have access to more funds than you imagine! Or, you may be more restricted in the choice of mortgages to finance your portfolio than you expect! Either way, you need to know.

Our advisors go through a ‘Full Financial Review’ to understand your current finances:

• Your home finances and income
• Credit history
• Deposit available to purchase, as well as
• Finances for ongoing property costs

Once this necessary, but less exciting exercise is conducted, then we can start considering the exciting task of helping you learn how to fulfil your property goals!

We are well aware that the reputation of companies or individuals offering property training is ‘high cost, low fulfilment’!

**This is not our way!**

We have locations around the country where we know property prices are ripe for investment, with rental prices offering profitable incomes. We will spend the day on-site discussing the subtleties of what you need to know about investing in property, whilst we are visiting the properties you could be purchasing.

And to prove this, just as we recommend a two-step process for you, we have a three-step process for ourselves.

**PROPERTY INVESTMENT COST**

- £1,499 per property

  - Financial Review - **FREE**
  - On-site Training* - £399
  - Completion Fee^ - £1,499

Proving that we are as good as our word is very important for Simple Property Investment - the completion fee for fulfilling what we set out to help you achieve is only due on each property you complete on. If we don’t help you purchase a property, we won’t charge you the completion fee!

* Due for each completed property purchase
# One off payment to be paid prior to initial training day.
^ Fee invoice is submitted to solicitors and included in completion fees.

We are well aware that the reputation of companies or individuals offering property training is ‘high cost, low fulfilment’!

Now that you have a mortgage and a large financial commitment to maintain despite whatever circumstances may arise in your life or finances, insurance is a key part of your mortgage finance and brings peace of mind. However, insurance is something much recommended for all to have whether in conjunction with a mortgage or not.

Costs can dictate what insurance you can afford. So how do you get what is best for you with so many different options?

This is something that you should review regularly, at minimum every time that you change property, re-mortgage, or when there is a significant life event, such as if you have a baby.

Our advisors will guide you on the best insurance to compliment your mortgage, or stand alone insurance as you require.

CASE STUDY 3 - Safeer & Aisha

Safeer and Aisha were first time buyers looking for their dream home, however they could not find one they could afford, which is a common problem for many in this market. Tim met with them and discussed the possibility that for now they may not be able to buy their dream home exactly where they would like to. He researched areas near to their desired location and found the best property for them within their budget, helped them negotiate the deal and arranged the mortgage.

With Tim’s help they went from frustrated renters to happy home owners!
